Summary

I am a skilled computer programmer with a passion for software design and web engineering. With over 5 years of experience, I have a strong foundation in various programming languages and frameworks, including JavaScript, Node.js, and React.js. Additionally, I possess expertise in both front-end and back-end development. As a self-driven individual, I co-founded along my father, TheTechies, and have gained valuable experience working with reputable platforms like Upwork and Fiverr. My dedication and continuous pursuit of knowledge have been recognized with certifications and awards in the tech industry.
